Challenge Information

<p>Background</p>	<p>Teachers continuously team to evaluate practice, design learning collaboratives, discuss student progress, identify community opportunities, and to mitigate challenges through change processes focused on highly effective, student-centered practices that improve the schools and raise student achievement.</p> <p>Challenges:</p> <ul style="list-style-type: none"> • Teachers want to be able to connect and collaborate with others outside of their school but with many pressures on their time, it is difficult to connect and share. • Need to advance collaborative networks around data, best practices, and planning. <p>Potential components of a collaboration hub:</p> <ul style="list-style-type: none"> • Teacher Match – allowing educators to be “matched” based on their profile (content area, pedagogy, common interests, goals) in order to support one another and grow their practice. For elementary and secondary teachers. • Resource Hub – offering a searchable database for lesson plans, curricular resources, subject matter experts. • Innovation Spaces – allowing teachers to find physical spaces where they can go to network, study, and do creative thinking.
<p>Data</p>	<ul style="list-style-type: none"> • OCISS Digital Repository

	<ul style="list-style-type: none">• 5-10 locations will be provided by DOE as a sample set
